ABOUT ME

Management studentat IIM Sirmaur, also pursuing an online BBA at IIM Bangalore, with hands-on experience in data analysis, consumer research and presentation design. Led hostel operations for 120 residents and logistics for nearly 20 college events, while mentoring and tutoring alongside studies. Seeking an internship to turn analysis into clear, actionable insights.

RESEARCH & STORYTELLING PROJECTS

Muse Mart (Oral Communication):

1. Analysed online vs offline consumer data and benchmarked the two channels against each other (competitor-style comparison)
2. Recommended a hybrid rollout for ₹10 Cr, and presented the case with data-backed reasoning

Skills: competitor and data analysis, consumer insights, persuasive presentation

Growth Accounting (Macroeconomics)

1. Sourced GDP growth data for India, US, China and South Korea (2000–2025) from World Bank.
2. Estimated a Cobb-Douglas production function by regression in Excel to analyse drivers of growth

Skills: data analysis, consumer insights, business recommendation

Informal Housing, Paonta Sahib (E&D):

1. Conducted fieldwork and stakeholder interviews on land tenure and access to basic services; structured the findings into a documentary
2. Verified claims against primary interviews and government/secondary sources before including them in the final narrative

Skills: primary research, fact verification, interviewing, storytelling

Jeevan, Mrityu aur Moksha: The Banaras Philosophy: Research & Presentation

1. Researched Banaras's philosophy of life, death and liberation using Bhagavad Gita verses and turned a dense, abstract theme into a clear presentation narrative
2. Presented to Mr. Pankaj Dubey (Former CEO Eicher&Polaris India) ; used AI tools for visuals and drafting, with claims checked against the original texts

Skills: textual research, simplifying complex ideas, narrative structuring, AI-assisted content

Also: Growth Accounting (Cobb-Douglas regression, 4 economies, 2000-2025) · Hamdard moot court (legal argumentation) · AI video generation and AI-assisted workflows
